# Shape greater possibilities with Powermax® plasma systems

Cut or gouge with added reach

With a Duramax® Hyamp™ Long torch, cut with extended reach. It's ideal for cutting up skeletons and scrapping.

Cut flush to base metal

FlushCut™ consumables cut closer to base metal with an angled arc, reducing grinding and rework.

Cut or gouge in hard to reach places

Cut or gouge in hard-to-access areas with HyAccess™ extended consumables.

Videos: See how Powermax can help shape your next project. Visit [www.hypertherm.com/praxair](http://www.hypertherm.com/praxair)

If you have what seems like a unique cutting need, chances are that there's a Powermax torch and consumables combination made for the job.

Cut capacity					Application capabilities								
	Recommended	Severance	Output range	Input phase									
					Mechanized cutting	Drag cutting	FineCut®	Marking	Precision gouging	Max control gouging	Max removal gouging	HyAccess™	FlushCut™
Powermax30® XP	3/8"	5/8"	15-30	Single		●	●					●	
Powermax30® AIR	5/16"	5/8"	15-30	Single		●							
Powermax45® XP	5/8"	1-1/8"	10-45	Single or three	●	●	●	●	●	●	●	●	●
Powermax65®	3/4"	1-1/4"	20-65	Single and three	●	●	●			●	●	●	●*
Powermax85®	1"	1-1/2"	25-85	Single and three	●	●	●			●	●	●	●*
Powermax105®	1-1/4"	2"	30-105	Three	●	●	●			●	●	●	●*
Powermax125®	1-1/2"	2-1/4"	30-125	Three	●	●	●			●	●		●

\* Using the 45 A FlushCut consumables above 45 amps on the Powermax65/85/105 will cause premature consumable damage.

# RULE THE FLAME WITH VICTOR®.

Victor is number one in oxy-fuel torches and regulators worldwide for a reason. We know fabricators take pride in their craft, and they demand equipment that works as hard as they do. For quality, safety and performance, choose Victor.

# The *ProStar*™ AVENGER™ 140MP MIG Welder

Praxair provides welding equipment and accessories with high quality, performance and productivity.

### Advantages:

- Advanced inverter technology
- 110V, 20A input power
- No load voltage 68V
- Output range 30 to 90A, 140A peak
- 30% duty cycle at 90A
- Spot timer control
- Spool gun capable
- *Prostar* MIG gun
- 10-foot ground cable and clamp
- Includes an inert gas regulator and gas hose
- 3-year parts and labor warranty

## Simplify Pipe Processing, Improve Productivity

### Introducing the NEW *ProStar*<sup>™</sup> *Lancer*<sup>™</sup> pipe cutting machine.

Praxair is debuting the new *Lancer* PRS SETLP8-12 Pipe Cutting Machine at ConExpo 2020. The new *Lancer* pipe cutting machine is an affordably priced, entry-level automated pipe cutting system that empowers users to cut up to 8-inch diameter pipe and up to 4-inch square tubing in sections up to 25 feet. Additionally, the *Lancer* Pipe Cutting Machine has an optional fume extraction system that provides exceptional performance on mild steel, galvanized steel, galvanized steel and stainless steel.

The *Lancer* Pipe Cutting Machine from Praxair makes pipe cutting automation accessible to virtually any fabricator. As a new addition to Praxair's *ProStar* line of CNC cutting machines, this machine provides the performance you expect and is supported by Praxair's network of CNC cutting system specialists, providing you with a reliable solution for improved productivity.

#### FEATURES:

- Cut up to 8 in. diameter pipe
- Cut up to 4 in. square tubing
- Process lengths up to 25 ft. long
- Optional fume extraction provides exceptional performance with mild steel, galvanized steel, galvanized steel and stainless steel
