

Growing Line System

ProStar™ Large Pipe & Vessel Roll

ProStar growing line systems reduce fit-up time up to 65% when compared to traditional methods. Our machines enable fast alignment, leveling, fit-up, and large pipe indexing—even vessels 20 feet in diameter up to 80 tons or more.

STANDARD FEATURES

- Easy-to-use HMI touchscreen controls hydraulic jacking, alignment, indexing/track drive, and powered rotation
- Cabled or wireless pendants plug and play with main control console to suit your operator's preference
